

STATEMENT OF LUKE HEIMLICH

I have taken responsibility for my conduct when I was a teenager . As a 16 year old, I was placed on juvenile court probation and ordered to participate in an individual counseling program. I'm grateful for the counseling I received, and since then, I realized that the only way forward was to work each day on becoming the best person, community member and student I can possibly be. I understand that many people now see me differently, but I hope that I can eventually be judged for the person I am today.

I'm so proud of our team's accomplishment and don't want to be a distraction. Therefore, I've respectfully requested to be excused from playing at this time.
