

PAC-12 WORKS

Pac-12 Networks is not just a typical media network. It is wholly owned by the Pac-12's great universities, intended to serve their student-athletes, their fans, and help fulfill their educational missions by providing exposure and much-needed revenue. Its unique mission requires it to maintain a flexible employment structure that includes union and non-union professionals as well as approximately **2,000** students.

PAC-12 NETWORKS CREATES NEW JOBS AND UNPRECEDENTED EXPOSURE

- With **750** televised events during the 2013-14 academic year, Pac-12 Networks created more than **17,000** daily hire positions. This academic year, Pac-12 Networks will televise **850** events and create more than **19,000** daily hire positions.
- The vast majority of these events, mostly Olympic and women's sports events, had never been televised before. As such, **78%** of the daily hires last year were new positions. Those new positions are expected to grow to **82%** in 2014-15.
- Of the **17,000** daily hires in 2013-14, **79%** were direct freelance hires, **12%** were students and **9%** were hired through outside crewing companies.
- Pac-12 Networks will televise **850** events across **30** sports, including more than **450** women's sports and **22** sports that had never received TV coverage before.
- The widespread coverage means unprecedented exposure to the more than **7,000** deserving and talented student-athletes in the Pac-12, allowing parents to see their children play on television.

PAID POSITIONS FOR STUDENTS IN 2013-14

PAC-12 NETWORKS IS COMMITTED TO OUR UNIVERSITIES' ACADEMIC MISSIONS

- Pac-12 Networks has created the largest remote production student training program in the country and employs students on every live event telecast.
- Pac-12 Networks hired students to fill more than **1,900** paid positions during the 2013-14 academic year and expects that number to grow to more than **2,000** in 2014-15.

PAC-12 NETWORKS OPERATES IN STATE-OF-THE-ART FACILITIES

- Pac-12 Networks boasts the **largest private IP Network** in the United States dedicated to sports, connecting **all 12** universities to its San Francisco studio.
- Over **5,600** fiber-miles were used to create the Pac-12 Campus Network. The total network bandwidth is **40 Gigabits per second**, meaning it could copy the entire Library of Congress in **37** minutes.
